### **REFLECTIONS**

Analyze the experiences of the day and respond to the following questions:  
(add additional pages, as deemed appropriate)

- 1. What success occurred today? (What worked, and how did it contribute to student success?)**

The pairing exercise that allowed the students to rehearse and further educate themselves about the scene worked quite well. The students loved doing it. It is very easy to see that these students were prepared for a Drama class.

- 2. What could be improved? Why didn't the strategy or method work, and what suggestions can be made for improvement?**

Notes. I hate giving them. The students are not fans of getting them. So I have made a promise to myself that from this point on, I will provide notes in a way that is more entertaining not only to the students but to myself. I did that today (3/21/2007) by providing the notes through a series of activities that showed them the information rather than telling them the information. It went over much better.

**To conclude:** Less notes more action.
